Ski safari experience

Powder Snow in Hokkaido
Dates: 08-17 January 2026
16-25 January 2026

JAPAN

A ski safari, in search of the best snow in the world...

Every year, the island of Hokkaidō enjoys exceptional snow cover and extraordinarily light snow, described by some as 'the best powder in the world'.

It is also a volcanic island, so we will ski on an active volcano surrounded by fumaroles.

To make the most of our skiing opportunities, we will alternate skiing in the resorts with trips to the mountains.

Many of these outings will be facilitated by the ski lifts, which will provide quick access to the best off-piste terrain.

You will need wide skis (minimum 90 mm, ideally over 105 mm) with touring bindings.

FLEXIBILITY. ADAPTABILITY. PERSONALIZED.

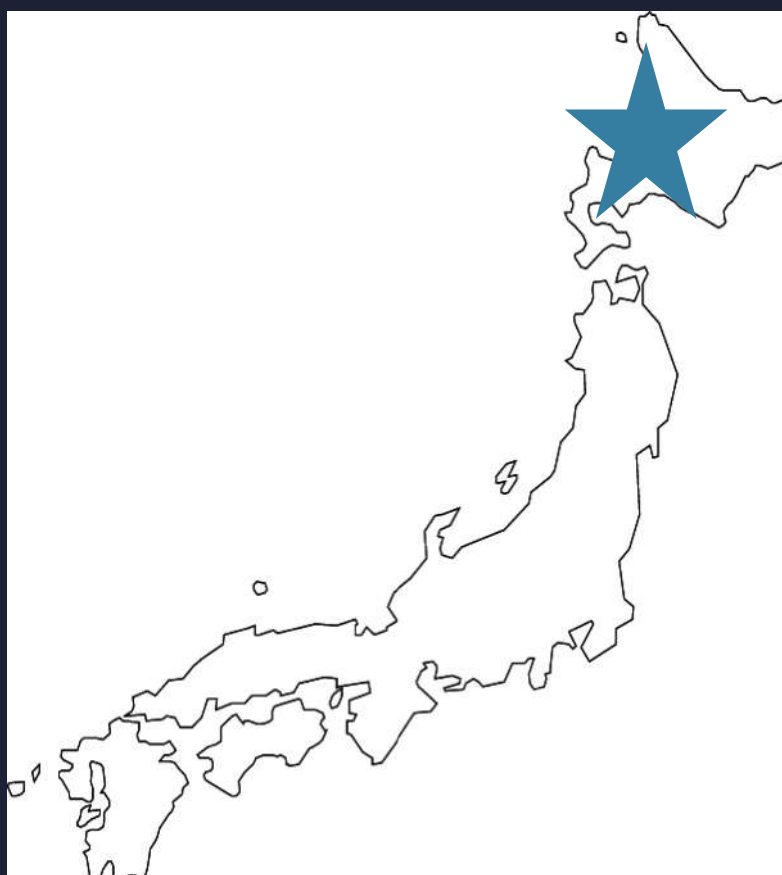

Hokkaido Island

The island of Hokkaido, Japan's northernmost island, is a natural paradise. You'll enjoy every bit of its scenery, mountains, lakes and seascapes to the fullest.

With unrivalled snow cover and some of the best in the world, this region of Japan has become a must for freeride skiing.

OUR PHILOSOPHY

Our trips are planned, developed and supervised by a team of enthusiasts. We give special importance to the human aspect and detail in every project we undertake.

Our trips carry our signature: in a meticulously studied area, we offer tailor-made itineraries, as well as high-quality cuisine and accommodation.

OUR STRONG POINTS

JAPAN

A unique environment in search of Hokkaidō's famous powder snow.

Accommodation combining quality, authenticity and comfort.

Discover the specialities of the local cuisine.

ADVENTURE

Why?

Why a Ski Safari?

Discover the island of Hokkaido and its various sites in depth, and ensure maximum flexibility in finding the best snow between the north and south of the island.

Why use ski mountaineering equipment ?

If it hasn't snowed for 2/3 days, it is better to stay away from the most popular sites. We will use ski touring equipment to find better conditions in virgin areas. Depending on your physical condition, these outings can involve between 300 and 800 m of ascent...

What equipment to use?

We are skiers first and foremost, and we prefer to go downhill. We therefore recommend skis with a 90-105 mm wide, equipped with low-tech touring bindings (a lightweight, high-performance set) and boots with Freerando insoles. Of course, the usual safety equipment is mandatory: avalanche transceiver, shovel and probe (ABS backpack optional).

Accommodation

Comfort, Authentic

We prefer to stay in ryokan (typical Japanese inns) or 3-star hotels, most of which have an onsen (Japanese hot spring bath), which is always a welcome way to relax after a long day on the slopes.

In Europe, we are mostly familiar with sushi, but Japanese cuisine is much more extensive: okonomiyaki, ramen...

IN SUMMARY

- Thermal baths
- Traditional accommodations
- Japanese comfort

Gastronomy

Discover, Quality

Hokkaido's Japanese cuisine is famous for its fresh ingredients and unique specialities.

Located in the north of Japan, Hokkaido enjoys a cool climate, making it an ideal region for the production of quality seafood, dairy products and vegetables. A real cadeau for cooking amateurs...
